The final investigation of death in determining the cause and matter of death shall revert to the county of origin, and the coroner or medical examiner of such county shall be responsible for the Missouri certificate of death. 4. If an anatomical gift has been or might be made of a part of a decedent whose body is under the jurisdiction of the coroner or medical examiner and a postmortem examination is not required, or the coroner or medical examiner determines that a postmortem examination is required but that the recovery of the part that is the subject of an anatomical gift will not interfere with the examination, the coroner or medical examiner and procurement organization shall cooperate in the timely removal of the part from the decedent for purposes of transplantation, therapy, research, or education.
5. If an anatomical gift of a part from the decedent under the jurisdiction of the coroner or medical examiner has been or might be made, but the coroner or medical examiner initially believes that the recovery of the part could interfere with the postmortem investigation into the decedent's cause or manner of death, the coroner or medical examiner shall consult with the procurement organization or physician or technician designated by the procurement organization about the proposed recovery. After consultation, the coroner or medical examiner may allow recovery.

During the removal procedure, the coroner or medical examiner or his or her designee may allow recovery by the procurement organization to proceed, or, if the coroner or medical examiner or his or her designee reasonably believes that the part may be involved in determining the decedent's cause or manner of death, deny recovery by the procurement organization.
7. If the coroner or medical examiner or his or her designee denies recovery under subsection 6 of this section, the coroner or medical examiner or his or her designee shall:
- (1) Explain in a record the specific reasons for not allowing recovery of the part;
  - (2) Include the specific reasons in the records of the coroner or medical examiner; and

Revised Missouri Statutes – August 28, 2008

- (3) Provide a record with the specific reasons to the procurement organization.
8. If the coroner or medical examiner or his or her designee allows recovery of a part under subsection 4, 5, or 6 of this section, the procurement organization shall, upon request, cause the physician or technician who removes the part to provide the coroner or medical examiner with a record describing the condition of the part, a biopsy, photograph, and any other information and observations that would assist in the postmortem examination.
  9. If a coroner or medical examiner or his or her designee is required to be present at a removal procedure under subsection 6 of this section, the procurement organization requesting the recovery of the part shall, upon request, reimburse the coroner or medical examiner or his or her designee for the additional costs incurred in complying with subsection 6 of this section.

194.117. Any person who discovers the dead body of, or acquires the first knowledge of the death of, any child under the age of one year and over the age of one week, where the child died suddenly when in apparent good health, shall immediately notify the county coroner or medical examiner of the known facts concerning the time, place, manner, and circumstances of the death. All such deaths shall be autopsied by a certified child death pathologist. The coroner or medical examiner shall notify the parent or guardian of the child that an autopsy shall be performed at the expense of the state. The department of health and senior services shall receive prompt notification of such autopsy results. The results from the autopsy shall be reduced to writing and delivered to the state department of health and senior services. The term "sudden infant death syndrome" shall be entered on the death certificate as the principal cause of death where the term is appropriately descriptive of the circumstances surrounding the death of the child. The certified child death pathologist shall, upon request by the parents or guardian, release the full autopsy results to the parents, guardian or family physician in cases of suspected sudden infant death syndrome within thirty days of such request. The tangible summary and full autopsy report shall be provided at no cost to the parents or guardian. The director of the department of health and senior services shall prescribe reasonable rules and regulations necessary to carry out the provisions of this section, including the establishment of a cost schedule and standards for reimbursement of costs of autopsies performed pursuant to the provisions of this section. The provisions of this section shall not be construed so as to limit, restrict or otherwise affect any power, authority, duty or responsibility imposed by any other provision of law upon any coroner or medical examiner. The department of health and senior services may receive grants of money or other aid from federal and other public and private agencies or individuals for the administration or funding of this section or any portion thereof or for research to determine the cause and prevention of deaths caused by sudden infant death syndrome.

**Right of sepulcher, the right to choose and control final disposition of a dead human body.**

- 194.119.1. As used in this section, the term "right of sepulcher" means the right to choose and control the burial, cremation, or other final disposition of a dead human body.
2. For purposes of this chapter and chapters 193, 333, and 436, RSMo, and in all cases relating to the custody, control, and disposition of deceased human remains, including the common law right of sepulcher, where not otherwise defined, the term "next-of-kin" means the following persons in the priority listed if such person is eighteen years of age or older, is mentally competent, and is willing to assume responsibility for the costs of disposition:
    - (1) An attorney in fact designated in a durable power of attorney wherein the deceased specifically granted the right of sepulcher over his or her body to such attorney in fact;
    - (2) The surviving spouse;
    - (3) Any surviving child of the deceased. If a surviving child is less than eighteen years of age and has a legal or natural guardian, such child shall not be disqualified on the basis of the child's age and such child's legal or natural guardian, if any, shall be entitled to serve in the place of the child unless such child's legal or natural guardian was subject to an action in dissolution from the deceased. In such event the person or persons who may serve as next-of-kin shall serve in the order provided in subdivisions (4) to (8) of this subsection;
    - (4)
      - (a) Any surviving parent of the deceased; or
      - (b) If the deceased is a minor, a surviving parent who has custody of the minor; or
      - (c) If the deceased is a minor and the deceased's parents have joint custody, the parent whose residence is the minor child's residence for purposes of mailing and education;
    - (5) Any surviving sibling of the deceased;
    - (6) The next nearest surviving relative of the deceased by consanguinity or affinity;
    - (7) Any person or friend who assumes financial responsibility for the disposition of the deceased's remains if no next-of-kin assumes such responsibility;

- (8) The county coroner or medical examiner; provided however that such assumption of responsibility shall not make the coroner, medical examiner, the county, or the state financially responsible for the cost of disposition.
3. The next-of-kin of the deceased shall be entitled to control the final disposition of the remains of any dead human being consistent with all applicable laws, including all applicable health codes.
4. A funeral director or establishment is entitled to rely on and act according to the lawful instructions of any person claiming to be the next-of-kin of the deceased; provided however, in any civil cause of action against a funeral director or establishment licensed pursuant to this chapter for actions taken regarding the funeral arrangements for a deceased person in the director's or establishment's care, the relative fault, if any, of such funeral director or establishment may be reduced if such actions are taken in reliance upon a person's claim to be the deceased person's next-of-kin.
5. Any person who desires to exercise the right of sepulcher and who has knowledge of an individual or individuals with a superior right to control disposition shall notify such individual or individuals prior to making final arrangements.
6. If an individual with a superior claim is personally served with written notice from a person with an inferior claim that such person desires to exercise the right of sepulcher and the individual so served does not object within forty-eight hours of receipt, such individual shall be deemed to have waived such right. An individual with a superior right may also waive such right at any time if such waiver is in writing and dated.
7. If there is more than one person in a class who are equal in priority and the funeral director has no knowledge of any objection by other members of such class, the funeral director or establishment shall be entitled to rely on and act according to the instructions of the first such person in the class to make arrangements; provided that such person assumes responsibility for the costs of disposition and no other person in such class provides written notice of his or her objection.

## **Chapter 210**

### **Child Protection and Reformation**

#### **Section 210.115**

August 28, 2008

**Reports of abuse, neglect, and under age eighteen deaths--persons required to report-- deaths required to be reported to the division or child fatality review panel, when-- report made to another state, when.**

- 210.115. 1. When any physician, medical examiner, coroner, dentist, chiropractor, optometrist, podiatrist, resident, intern, nurse, hospital or clinic personnel that are engaged in the examination, care, treatment or research of persons, and any other health practitioner, psychologist, mental health professional, social worker, day care center worker or other child-care worker, juvenile officer, probation or parole officer, jail or detention center personnel, teacher, principal or other school official, minister as provided by section 352.400, RSMo, peace officer or law enforcement official, or other person with responsibility for the care of children has reasonable cause to suspect that a child has been or may be subjected to abuse or neglect or observes a child being subjected to conditions or circumstances which would reasonably result in abuse or neglect, that person shall immediately report or cause a report to be made to the division in accordance with the provisions of sections 210.109 to 210.183. As used in this section, the term "abuse" is not limited to abuse inflicted by a person responsible for the child's care, custody and control as specified in section 210.110, but shall also include abuse inflicted by any other person.
2. Whenever such person is required to report pursuant to sections 210.109 to 210.183 in an official capacity as a staff member of a medical institution, school facility, or other agency, whether public or private, the person in charge or a designated agent shall be notified immediately. The person in charge or a designated agent shall then become responsible for immediately making or causing such report to be made to the division. Nothing in this section, however, is meant to preclude any person from reporting abuse or neglect.
3. Notwithstanding any other provision of sections 210.109 to 210.183, any child who does not receive specified medical treatment by reason of the legitimate practice of the religious belief of the child's parents, guardian, or others legally responsible for the child, for that reason alone, shall not be found to be an abused or neglected child, and such parents, guardian or other persons legally responsible for the child shall not be entered into the central registry. However, the division may accept reports concerning such a child and may subsequently investigate or conduct a family assessment as a result of that report. Such an exception shall not limit the administrative or judicial authority of the state to ensure that medical services are provided to the child when the child's health requires it.
4. In addition to those persons and officials required to report actual or suspected abuse or neglect, any other person may report in accordance with sections 210.109 to 210.183 if such person has reasonable cause to suspect that a child has been or may be subjected to abuse or neglect or observes a child being subjected to conditions or circumstances which would reasonably result in abuse or neglect.
5. Any person or official required to report pursuant to this section, including employees of the division, who has probable cause to suspect that a child who is or may be under the age of eighteen, who is eligible to receive a certificate of live birth, has died shall report that fact to the appropriate medical examiner or coroner. If, upon review of the circumstances and medical information, the medical examiner or coroner determines that the child died of natural causes while under medical care for an established natural disease, the coroner, medical examiner or physician shall notify the division of the child's death and that the child's attending physician shall be signing the death certificate. In all other cases, the medical examiner or coroner shall accept the report for investigation, shall immediately notify the division of the child's death as required in section 58.452, RSMo, and shall report the findings to the child fatality review panel established pursuant to section 210.192.
6. Any person or individual required to report may also report the suspicion of abuse or neglect to any law enforcement agency or juvenile office. Such report shall not, however, take the place of reporting or causing a report to be made to the division.
7. If an individual required to report suspected instances of abuse or neglect pursuant to this section has reason to believe that the victim of such abuse or neglect is a resident of another state or was injured as a result of an act which occurred in another state, the person required to report such abuse or neglect may,

in lieu of reporting to the Missouri division of family services, make such a report to the child protection agency of the other state with the authority to receive such reports pursuant to the laws of such other state. If such agency accepts the report, no report is required to be made, but may be made, to the Missouri division of family services.

- 660.300.1. When any adult day care worker; chiropractor; Christian Science practitioner; coroner; dentist; embalmer; employee of the departments of social services, mental health, or health and senior services; employee of a local area agency on aging or an organized area agency on aging program; funeral director; home health agency or home health agency employee; hospital and clinic personnel engaged in examination, care, or treatment of persons; in-home services owner, provider, operator, or employee; law enforcement officer; long-term care facility administrator or employee; medical examiner; medical resident or intern; mental health professional; minister; nurse; nurse practitioner; optometrist; other health practitioner; peace officer; pharmacist; physical therapist; physician; physician's assistant; podiatrist; probation or parole officer; psychologist; or social worker has reasonable cause to believe that an in-home services client has been abused or neglected, as a result of in-home services, he or she shall immediately report or cause a report to be made to the department. If the report is made by a physician of the in-home services client, the department shall maintain contact with the physician regarding the progress of the investigation.
2. When a report of deteriorating physical condition resulting in possible abuse or neglect of an in-home services client is received by the department, the client's case manager and the department nurse shall be notified. The client's case manager shall investigate and immediately report the results of the investigation to the department nurse. The department may authorize the in-home services provider nurse to assist the case manager with the investigation.
  3. If requested, local area agencies on aging shall provide volunteer training to those persons listed in subsection 1 of this section regarding the detection and report of abuse and neglect pursuant to this section.
  4. Any person required in subsection 1 of this section to report or cause a report to be made to the department who fails to do so within a reasonable time after the act of abuse or neglect is guilty of a class A misdemeanor.
  5. The report shall contain the names and addresses of the in-home services provider agency, the in-home services employee, the in-home services client, the home health agency, the home health agency employee, information regarding the nature of the abuse or neglect, the name of the complainant, and any other information which might be helpful in an investigation.
  6. In addition to those persons required to report under subsection 1 of this section, any other person having reasonable cause to believe that an in-home services client or home health patient has been abused or neglected by an in-home services employee or home health agency employee may report such information to the department.
  7. If the investigation indicates possible abuse or neglect of an in-home services client or home health patient, the investigator shall refer the complaint together with his or her report to the department director or his or her designee for appropriate action. If, during the investigation or at its completion, the department has reasonable cause to believe that immediate action is necessary to protect the in-home services client or home health patient from abuse or neglect, the department or the local prosecuting attorney may, or the attorney general upon request of the department shall, file a petition for temporary care and protection of the in-home services client or home health patient in a circuit court of competent jurisdiction. The circuit court in which the petition is filed shall have equitable jurisdiction to issue an ex parte order granting the department authority for the temporary care and protection of the in-home services client or home health patient, for a period not to exceed thirty days.
  8. Reports shall be confidential, as provided under section 660.320.
  9. Anyone, except any person who has abused or neglected an in-home services client or home health patient, who makes a report pursuant to this section or who testifies in any administrative or judicial proceeding arising from the report shall be immune from any civil or criminal liability for making such a report or for testifying except for liability for perjury, unless such person acted negligently, recklessly, in bad faith, or with malicious purpose.

10. Within five working days after a report required to be made under this section is received, the person making the report shall be notified in writing of its receipt and of the initiation of the investigation.
11. No person who directs or exercises any authority in an in-home services provider agency or home health agency shall harass, dismiss or retaliate against an in-home services client or home health patient, or an in-home services employee or a home health agency employee because he or any member of his or her family has made a report of any violation or suspected violation of laws, standards or regulations applying to the in-home services provider agency or home health agency or any in-home services employee or home health agency employee which he has reasonable cause to believe has been committed or has occurred.
12. Any person who abuses or neglects an in-home services client or home health patient is subject to criminal prosecution under section 565.180, 565.182, or 565.184, RSMo. If such person is an in-home services employee and has been found guilty by a court, and if the supervising in-home services provider willfully and knowingly failed to report known abuse by such employee to the department, the supervising in-home services provider may be subject to administrative penalties of one thousand dollars per violation to be collected by the department and the money received therefor shall be paid to the director of revenue and deposited in the state treasury to the credit of the general revenue fund. Any inhome services provider which has had administrative penalties imposed by the department or which has had its contract terminated may seek an administrative review of the department's action pursuant to chapter 621, RSMo. Any decision of the administrative hearing commission may be appealed to the circuit court in the county where the violation occurred for a trial de novo. For purposes of this subsection, the term "violation" means a determination of guilt by a court.
13. The department shall establish a quality assurance and supervision process for clients that requires an in-home services provider agency to conduct random visits to verify compliance with program standards and verify the accuracy of records kept by an in-home services employee.
14. The department shall maintain the employee disqualification list and place on the employee disqualification list the names of any persons who have been finally determined by the department, pursuant to section 660.315, to have recklessly, knowingly or purposely abused or neglected an in-home services client or home health patient while employed by an in-home services provider agency or home health agency. For purposes of this section only, "knowingly" and "recklessly" shall have the meanings that are ascribed to them in this section. A person acts "knowingly" with respect to the person's conduct when a reasonable person should be aware of the result caused by his or her conduct. A person acts "recklessly" when the person consciously disregards a substantial and unjustifiable risk that the person's conduct will result in serious physical injury and such disregard constitutes a gross deviation from the standard of care that a reasonable person would exercise in the situation.
15. At the time a client has been assessed to determine the level of care as required by rule and is eligible for in-home services, the department shall conduct a "Safe at Home Evaluation" to determine the client's physical, mental, and environmental capacity. The department shall develop the safe at home evaluation tool by rule in accordance with chapter 536, RSMo. The purpose of the safe at home evaluation is to assure that each client has the appropriate level of services and professionals involved in the client's care. The plan of service or care for each in-home services client shall be authorized by a nurse. The department may authorize the licensed in-home services nurse, in lieu of the department nurse, to conduct the assessment of the client's condition and to establish a plan of services or care. The department may use the expertise, services, or programs of other departments and agencies on a case-by-case basis to establish the plan of service or care. The department may, as indicated by the safe at home evaluation, refer any client to a mental health professional, as defined in 9 CSR 30-4.030, for evaluation and treatment as necessary.
16. Authorized nurse visits shall occur at least twice annually to assess the client and the client's plan of services. The provider nurse shall report the results of his or her visits to the client's case manager. If the provider nurse believes that the plan of service requires alteration, the department shall be notified and the department shall make a client evaluation. All authorized nurse visits shall be reimbursed to the inhome services provider. All authorized nurse visits shall be reimbursed outside of the nursing home cap for in-home services clients whose services have reached one hundred percent of the average statewide charge for care and treatment in an intermediate care facility, provided that the services have been preauthorized by the department.
17. All in-home services clients shall be advised of their rights by the department at the initial evaluation. The rights shall include, but not be limited to, the right to call the department for any reason, including dissatisfaction with the provider or services. The department shall establish a process to receive such nonabuse and neglect calls other than the elder abuse and neglect hotline.
18. Subject to appropriations, all nurse visits authorized in sections 660.250 to 660.300 shall be reimbursed to the in-home services provider agency.

**State technical assistance team for child sexual abuse cases, duties--counties may develop team, members--availability of records.**

660.520.1.

There is hereby established in the department of social services a special team, to be known as the "state technical assistance team", to assist in cases of child abuse, child neglect, child sexual abuse, child exploitation, child pornography, or child fatality. It shall be the priority of the team to focus on those cases in which more than one report has been received. The team shall:

- (1) Provide assistance, expertise, and training to child protection agencies and multidisciplinary teams for the investigation and prosecution of child abuse, child neglect, child sexual abuse, child exploitation, child pornography, or child fatality cases;
  - (2) Assist in the investigation of child abuse, child neglect, child sexual abuse, child exploitation, child pornography, or child fatality cases, upon the request of a local, county, state, or federal law enforcement agency, county, state, or federal prosecutor, a representative of the family courts, medical examiner, coroner, juvenile officer, or department of social services staff. Upon being requested to assist in an investigation, the state technical assistance team shall notify appropriate parties specified in this subdivision of the team's involvement. State technical assistance team investigators licensed as peace officers by the director of the department of public safety pursuant to chapter 590, RSMo, shall be deemed to be peace officers within the state of Missouri while acting in an investigation or on behalf of a child. The power of arrest of a state technical assistance team investigator acting as a peace officer shall be limited to offenses involving child abuse, child neglect, child sexual abuse, child exploitation, child pornography, child fatality, or in situations of imminent danger to the investigator or another person;
  - (3) Assist county multidisciplinary teams to develop and implement protocols for the investigation and prosecution of child abuse, child neglect, child sexual abuse, child exploitation, child pornography, or child fatality cases.
2. The team may call upon the expertise of the office of the attorney general, the Missouri office of prosecution services, the state highway patrol, the department of health and senior services, the department of mental health or any other agency or institution.
  3. Each county may develop a multidisciplinary team for the purpose of determining the appropriate investigative and therapeutic action to be initiated on complaints referenced in subsection 1 of this section reported to the children's division. The multidisciplinary team may include, but is not limited to, a prosecutor, or his or her representative, an investigator from the children's division, a physician, a representative from a mental health care services agency and a representative of the police agency of primary jurisdiction.
  4. All reports and records made and maintained by the state technical assistance team or local law enforcement relating to criminal investigations conducted pursuant to this section, including arrests, shall be available in the same manner as law enforcement records, as set forth in sections 610.100 to 610.200, RSMo, and to the individuals identified in subdivision (13) of subsection 2 of section 210.150, RSMo. All other records shall be available in the same manner as provided for in section 210.150, RSMo.

On August 28, 2008, a new Missouri Law (S.B. 2008-1139) went into effect causing a change in the way Medical Examiners and Coroners have jurisdiction over a case. The new law is based on the location of occurrence of injury/illness, no longer on the location of pronouncement of death. This results in cases that were formerly MEO cases being Remanded Out to another jurisdiction and others being Remanded In from another jurisdiction. Cases Remanded In from another jurisdiction are included with the Regular MEO Cases for the remainder of this Annual Report. Cases Remanded Out to another jurisdiction are not included in the Regular MEO Cases.
